FAMILY-OWNED, AUSTRALIAN MADE, LOCALLY TRUSTED

At Activity Playgrounds, we believe every community deserves a safe, inspiring place to play.

For over 30 years, our family-owned Australian business has been designing, manufacturing, and installing playgrounds that encourage creativity, movement, and connection.

From our workshop in Victoria, we build play spaces that are locally made, built to last, and designed for real-world fun, supporting local jobs while ensuring councils, schools, and communities get quality they can trust.

FORTITUDE

Where Strength Meets Natural Beauty

Inspired by the resilience of nature and the durability of modern materials, our Fortitude Range combines the strength of Australian steel with the warmth of native timber.

Timber

Sustainably sourced Australian native timber, treated for long-lasting performance in even the toughest Australian conditions.

Australian Steel

Our steel is fabricated at our factory in Victoria's Yarra Valley using Galtube-Plus stock, which is galvanised on the outside and painted on the inside for maximum durability.

HDPE

Engineered HDPE for exceptional strength, safety, and UV stability.

Steel Rope

Durable steel reinforced rope with an internal steel core and precision-woven outer for lasting performance.

Natural Play for Small Spaces

Compact yet full of character, our smaller Fortitude combination units bring the warmth of timber and the strength of steel together in thoughtful, space-efficient designs.

Perfect for schools, pocket parks, and community spaces, these units provide all the essential elements of play, climbing, balance, and imagination within a smaller footprint.

Built with Australian-made durability and natural appeal, they prove that great design thrives in every size.

AP7265A – Bettong Combination Unit

Equipment W: 4100mm L: 2865mm
Impact area W: 7700mm L: 6140mm
Height 3820mm

AP7267A Kaluta Combination Unit

Equipment W: 3805mm L: 4585mm
Impact area W: 7330mm L: 7295mm
Height 3400mm

AP7266A Kowari Combination Unit

Equipment W: 3010mm L: 4710mm
Impact area W: 6010mm L: 8210mm
Height 3370mm

AP7004B Junior Outpost Combination Unit

Equipment W: 4055mm L: 4190mm
Impact area W: 6840mm L: 6465mm
Height 3370mm

AP7270A Wattlebird Combination Unit

Equipment W: 3820mm L: 6535mm
Impact area W: 6875mm L: 9905mm
Height 3400mm

AP7007B Ranger Outpost 5

Equipment W: 5635mm L: 7000mm
Impact area W: 9180mm L: 10080mm
Height 3670mm

Balanced Form. Enduring Design.

Blending function, beauty, and adaptability, our mid-sized Fortitude combination units create engaging play environments that suit a wide range of ages and abilities.

Each design features a balanced mix of natural textures, climbing challenges, and elevated platforms that inspire exploration and connection. Durable materials and timeless aesthetics make these units a versatile choice for community spaces seeking play value with enduring appeal.

AP7273A Rembrandt Combination Unit

Equipment W: 4645mm L: 7850mm
Impact area W: 8110mm L: 10740mm
Height 4470mm

AP7268A Numbat Combination Unit

Equipment W: 7240mm L: 6465mm
Impact area W: 10660mm L: 9860mm
Height 4235mm

AP7003B Judd Park Combination Unit

Equipment W: 5235mm L: 12655mm
Impact area W: 8230mm L: 16270mm
Height 3535mm

Elevated Play. Natural Connection.

Designed to engage, challenge, and connect, our larger Fortitude combination units bring scale and sophistication to community play spaces.

With generous layouts and a strong natural presence, they encourage movement, teamwork, and adventure across multiple levels. The combination of native timber and precision steel detailing delivers a striking visual statement while maintaining the strength and longevity that define the Fortitude range.

AP7320A Lincoln Combination Unit

Equipment W: 5360mm L: 9580mm
Impact area W: 8960mm L: 12580mm
Height 4270mm

AP7269A Dibbler Combination Unit

Equipment W: 5460mm L: 7160mm
Impact area W: 8760mm L: 10160mm
Height 3700mm

AP7271B - Echidna Combination Unit

Equipment W: 6160mm L: 9625mm
Impact area W: 9400mm L: 12855mm
Height 4000mm

Strength in Scale. Crafted to Endure.

Engineered for landmark community spaces, our largest Fortitude combination units combine architectural form with the enduring character of natural materials.

These expansive structures provide diverse play routes, multi-level challenges, and inclusive design that invites everyone to participate.

Built in Australia using locally sourced steel and timber, they represent the pinnacle of play design, robust, refined, and made to last for generations.

AP7254A Strathmore Combination Unit

Equipment W: 7145mm L: 9060mm
Impact area W: 10170mm L: 12665mm
Height 4120mm

AP7225B Harlow Combination Unit

Equipment W: 9640mm L: 10365mm
Impact area W: 12640mm L: 13170mm
Height 4425mm

AP7314B Avondale Combination Unit

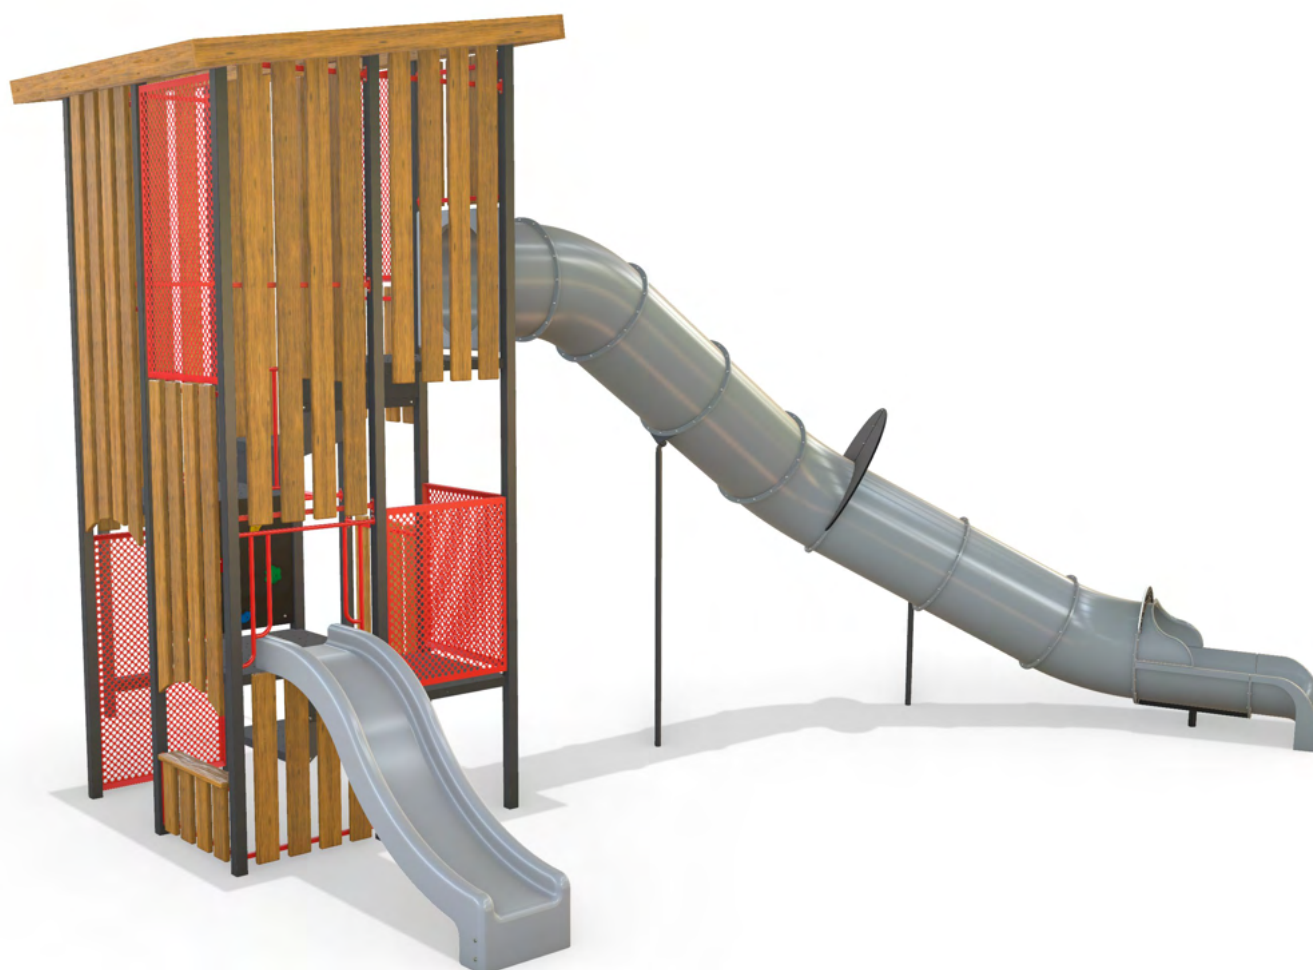

Equipment W: 7620mm L: 10010mm
Impact area W: 11110mm LL 13250mm
Height 3012mm

AP7006B Rooks Tower

Equipment W: 6935mm L: 8485mm

Impact area W: 10530mm L: 11410mm

Height 5170mm

AP7272A Portland Combination Unit

Equipment W: 8910mm L: 10585mm
Impact area W: 12485mm L: 14230mm
Height 4300mm

AP7212A Morwell Combination Unit

Equipment W: 10180mm L: 12580mm
Impact area W: 13500mm L: 15505mm
Height 4570mm

Why Choose the Fortitude Range?

Durable Construction

Made with high-quality Australian steel and sustainably sourced timber, built to withstand heavy use and harsh conditions.

Modular & Versatile

Choose from a wide range of layouts and components to suit any space, budget, or age group.

Fully Customisable

Tailor colours, finishes, and features to match your setting and community needs.

Natural Timber Appeal

The natural tones of timber paired with contemporary designs create inviting play spaces that blend seamlessly with various landscapes.

High Play Value

Thoughtfully designed for physical, social, and imaginative play. With natural timber elements that bring warmth, texture, and sensory richness to every experience.

Resilience Swings – Built for Strength, Designed for Play

A playground favourite for generations, our Resilience swings bring motion, excitement, and connection to every play space.

Crafted from durable Australian steel and premium components, they're designed for endless fun, from a gentle sway to a soaring arc. Available in single, double, and nest configurations, with multiple height variations to suit different age groups and site requirements, these swings deliver reliable performance and timeless play value for schools, parks, and community spaces.

Birds Nest with Double Swing

Timber Birds Nest Swing

Movement. Balance. Connection.

Designed to complement the Fortitude range, our spinners and rockers bring energy and interaction to every playground. Combining the strength of Australian steel with the natural warmth of timber, these pieces encourage movement, coordination, and social play through dynamic, shared experiences.

Each spinner delivers smooth, controlled motion suited to different ages and abilities, while the rocker adds rhythm and teamwork to the play environment. Built for durability, safety, and lasting performance, these elements enhance both the function and visual appeal of any Fortitude playground project.
