

Activity Playgrounds

Activity Playgrounds is an Australian-owned company designing, manufacturing and installing commercial playgrounds for local government, schools, landscape architects, developers and community organisations across Australia.

With manufacturing facilities in Wandin and Monbulk, Victoria, our in-house design, engineering, manufacturing and installation teams provide complete project delivery with consistent quality and oversight from concept through to completion.

35+ Years Experience

Management Systems	▶ ISO 9001, ISO 14001 & ISO 45001 Certified

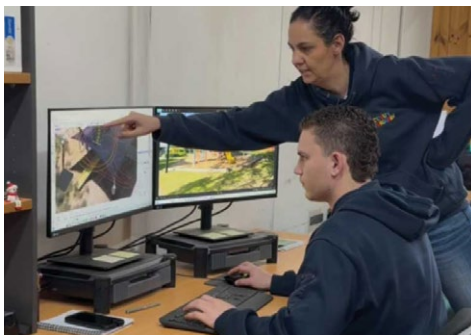

Designed. Manufactured. Installed.

Every project starts with understanding the site, the client's requirements and the intended outcome. We work closely with councils, schools, landscape architects and developers to deliver playground solutions that are practical, compliant and built to last.

With design, engineering, manufacturing and installation all managed in-house, we maintain greater control over quality, coordination and project delivery from concept through to completion.

Design

Our in-house design and engineering teams develop practical, compliant playground solutions designed to suit each site and project requirements.

Manufacture

Manufactured in Victoria using in-house steel fabrication, timber manufacturing and powder coating for consistent quality and reliable lead times.

Install & Support

Our experienced in-house installation teams deliver every playground, with ongoing maintenance, repairs and replacement parts providing long-term support.

Why this matters

Managing every stage of the project in-house provides our clients with:

- ✓ Greater quality control
- ✓ Better project coordination
- ✓ Reliable lead times
- ✓ Long-term product support
- ✓ Local Australian manufacturing
